

Minutes of the Meeting of Eighteenth Empowered Committee (EMC) of National Horticulture Mission (NHM) held on 26.10.2012

Preliminary

The eighteenth meeting of the Empowered Committee (EMC) of National Horticulture Mission (NHM) was held under the Chairmanship of Shri Anup Kumar Thakur, Additional Secretary (A&C) on 26.10.2012 to consider project proposals of the State Horticulture Missions (SHMs) of Andhra Pradesh, Bihar, Gujarat, Haryana, Jharkhand, Karnataka, Kerala, Madhya Pradesh, Maharashtra, Odisha, Punjab, Rajasthan, Tamil Nadu, Uttar Pradesh and West Bengal.

List of participants is annexed.

Shri Shailendra Kumar, Director (Horticulture) and Member Secretary EMC welcomed the Chairman and participants. He made a power point presentation giving brief account of the projects.

Opening remarks by Chairman

The Chairman mentioned that as projects were sanctioned by EMC on the recommendations of State Level Executive Committee (SLEC) and Project Appraisal Committee of DAC it was imperative that projects were appraised and recommended the due diligence at both levels.

Shri Sanjeev Chopra, Joint Secretary and Mission Director, NHM informed that the Department had received requests from State Horticulture Missions for organizing workshops and seminars etc. as part of 'Year of Horticulture, 2012' and reiterated that powers had already been delegated to SLEC for sanction of funds up to ₹ 5.00 lakh for organizing these events.

Based on justifications offered by the SHMs and views expressed by members, the following decisions were taken.

Andhra Pradesh

(₹ in lakh)

S. No.	Beneficiary Name/Activity/Project Details/Cost/Means of Finance	Eligible subsidy	Decision of EMC

32/18-EMC/KTK	<p>Name: SHM Date of Receipt: 12.07.2012, 06.08.2012 and 13.08.2012 Activity: Primary Processing Units (26 Units) for horticulture crops Location: Chickmagalur, Shimoga, Kodagu, Uttara Kannada, Gulbarga, Bagalkot and Belgaum Districts Project Cost: ₹ 364.22 lakh Project details: SHM Karnataka have forwarded 26 projects proposals of entrepreneurs for setting up of primary processing units for processing of pepper, vanilla, cocoa bean, turmeric and cardamom. An innovative and cost effective technology is employed. Room type dryer is used, which has advantages of being efficient with more capacity, better quality and fuel efficient (dehusked areca & cocoa pods are used as fuel). Astraoven advantages are fuel efficient, no pollution and no loss of energy. SHM has submitted details of back ward linkages for sourcing of raw cashewnut and raw material for other projects from the local farmers. The forward linkages in the form of tie-up for selling of products has also been established. The viability of the projects has been worked out based on functioning of the units for minimum of 250 days/year. The total project cost of 26 units is ₹ 364.22 lakh. The eligible capital cost as recommended by SHM is ₹ 265.12 lakh and cost of each unit is within the admissible limit of ₹ 24.00 lakh. State Government has recommended subsidy of ₹ 105.99 lakh for 26 units which is within the admissible limit. The individual projects by</p>	105.99	EMC approved the project and sanctioned ₹ 105.99 lakh @ 40% as credit linked back ended subsidy for 26 primary processing units as per Annexure - I.																																

	farmers are being setup in production zones and have already established back ward linkages for sourcing of raw material from the farmers. All the projects are credit linked and loan has been sanctioned by various banks. The details are at Annexure – I.

Means of Finance:					
Promoter's Share				- ₹ 178.26 lakh	
Term Loan				- ₹ 218.50 lakh	
State Bank of India, Arambagh Branch has appraised the project and sanctioned a term loan of ₹ 218.50 lakh vide letter dated 27.12.2011.					

During the course of the deliberations, the following general decisions were also taken by the Empowered Committee.

- i. Project Appraisal Committee, DAC and SLEC need to appraise the projects more minutely ensuring financial closure of each project before placing projects for sanction.
- ii. All SHMs will ensure that the projects are appraised at State Level with due diligence and subsidy is worked out which is commensurate with promoter's share and in no case subsidy should exceed the term loan sanctioned by the lending bank. The loan amount should be higher than the subsidy amount.
- iii. The powers for sanction of funds up to ₹ 5.00 lakh for organizing seminars, workshops, exhibitions and awareness campaigns have been delegated to SLEC.
- iv. In case of infrastructure projects like Tissue Culture Units in private sector SHM may not insist on MoU as conveyed by this Department in the past.
- v. In case of infrastructure projects under NHM where ever the cost of building is not defined in the guidelines, 55% of admissible project cost will be considered as building cost for computation of subsidy.
- vi. Cost of land cannot form part of the project cost under NHM for computation of subsidy.
- vii. States should ensure to depute Mission Director for attending the meetings of EMC and EC of NHM. In case of exigencies, prior information should be sent to this Department.
- viii. All SHMs will regularly update the website giving details of expenditure and physical progress of projects sanctioned under NHM.

- ix. Old projects which are complete and have started commercial production should not be recommended to NHM just for reimbursement of subsidy.
- x. For credit linked projects, especially post harvest, cold storage, processing etc. subsidy will be released in two installments after verification regarding confirmation of technical standards issued by this Department wherever issued in the matter. First installment will be released by SHM after verifying the location and authenticity of entrepreneur and second installment will be released after submission of satisfactory progress report by Joint Inspection Team comprising of members from lending bank, SHM and District administration.
- xi. SHMs will attach with every proposal the following documents without which the proposal will be treated as incomplete:
 - a. Techno-economic feasibility report.
 - b. Copy of bank sanction letter and appraisal note.
 - c. In case of cold storage, CA and MA storage projects – Data sheet, Certificate from Engineer/Architect regarding adoption of technical standards and protocol as per GOI guidelines should be part of the project. The details like business model (rental, arbitrage etc.), backward, forward linkages, number of crops to be stored (month wise), capacity utilization vis-à-vis breakeven point and viability of the project. All States will submit details of total cold storages in the State, functioning projects, storages which have been declared Non Productive Assets (NPA) and cold storage capacity required in-terms of production of perishable in the State.
 - d. Letter of sanction of loan by bank to the project.

The Chairman reiterated the need for proper utilization of funds released for various projects and for submission of progress reports and utilization certificates on time. This will ensure proper cash flow and facilitate proper monitoring so as to achieve desired objectives and goals of the Mission.

The meeting ended with a vote of thanks to and from the Chair.
