

F. No. 33-50/2012-Hort.  
Government of India  
Ministry of Agriculture  
Department of Agriculture & Cooperation  
(Horticulture Division)

Krishi Bhawan, New Delhi  
Dated November, 2012

To  
The Mission Director,  
State Horticulture Mission,  
All the States of NHM

**Subject: Subsidy on drip irrigation in green houses under National Horticulture Mission (NHM) – reg.**

Sir/Madam,

Under the NHM scheme, subsidy assistance is being extended for establishment of green houses. In this context it may be mentioned that the cost of green house and shade net house with tubular structure includes the cost of irrigation/fogging system. Assistance is available for setting up micro irrigation system in green house/shadenet houses under National Mission on Micro Irrigation (NMMI) also. In the circumstances, inclusion of irrigation/fogging system could be kept as an optional item under NHM, as the cost will be less without irrigation system. Accordingly, the cost of green house/shadenet house, with and without irrigation system will be as follows:-

Item	Maximum permissible cost	
	With irrigation system	Without irrigation system
a) Green house with Fan & Pad system	Rs. 1465/sq.m	Rs. 1356/sq.m
b) Green house with Naturally Ventilated Tubular structure	Rs. 935/sq.m	Rs. 826/sq.m
c) Shadenet house with Tubular structure	Rs. 600/sq.m	Rs. 510/sq.m

The pattern of assistance and cost norms for other components under protected cultivation will remain unchanged.

Yours faithfully,

(Sadhna Khanna)  
Under Secretary (Hort.)
