

Minutes of the Meeting of Seventeenth Empowered Committee (EMC) of National Horticulture Mission (NHM) held on 03.08.2012

Preliminary

As the chairman of the Empowered Committee (EMC) of National Horticulture Mission (NHM) Shri Anup Kumar Thakur, Additional Secretary, Department of Agriculture & Cooperation, was engaged with the Empowered Group of Ministers (EGOM), the seventeenth meeting of EMC was held under the Chairmanship of Shri Sanjeev Chopra, Joint Secretary (NHM) on 03.08.2012 to consider the project proposals of the State Horticulture Missions (SHMs) of Bihar, Chhattisgarh, Gujarat, Haryana, Jharkhand, Karnataka, Kerala, Madhya Pradesh, Maharashtra, Orissa, Punjab, Rajasthan, Tamil Nadu, Uttar Pradesh and West Bengal.

List of participants is annexed.

Welcome Address

Shri Shailendra Kumar, Director (Horticulture) and Member Secretary EMC welcomed the Chairman and participants.

Opening remarks by Chairman

The Chairman gave an update of the developments in the sector to the participants.

Warehousing Development and Regulatory Authority (WDRA)

He informed that in June 2012, the Warehousing Development and Regulatory Authority (WDRA), a statutory body had introduced Negotiable Warehouse Receipt (NWR) system in cold storage warehouses for the major horticulture produce so that the farmers may avail the benefit of loan from the banks against the deposit of NWRs. This would help in achieving the objective of easy credit access to farmers effective post-harvest management and integrated development of agriculture including horticulture in the country.

The WDRA had notified 26 horticulture commodities for the issuance of NWRs by the registered warehouses (cold storages). The WDRA had also finalised the checklist for accreditation of warehouses (cold storage). The Authority had approved five Government organisations as accreditation agencies for the cold storage warehouses namely National Institute of Agricultural Marketing (NIAM), Directorate of Marketing and Inspection, National Cooperative Development Corporation (NCDC), National Productivity Council (NPC), The Rail India Technical and Engineering Services (RITES) Ltd. Chairman desired that States should organize workshops in consultation with WDRA for making the cold storage owners aware of benefits of WDRA notification, RIDF funding and other initiatives.

Rural Infrastructure Development Fund (RIDF)

Chairman informed that Finance Minister in its budget speech for 2012-13 had earmarked ₹ 5,000 crore for creating warehousing facilities (including cold storages) from the allocation under Rural Infrastructure Development Fund (RIDF) which was ₹ 2000 crore during 2011 – 12. This was available to a beneficiary through the State Government, as well as through commercial bank. States should utilize this window

for financing of cold chain projects. Chairman also informed about Reduction of Excise Duty on Import of Cold Storage Equipments, External Commercial Borrowings (ECB) and hundred percent Foreign Direct Investment (FDI) under automatic route in storage and warehousing including warehousing of agriculture products with refrigeration i. e. cold storages.

Dr. Saumitra Chaudhuri Committee Report

Chairman while discussing the Dr. Saumitra Chaudhuri Committee (Planning Commission) Report, said that Uttaranchal, Madhya Pradesh and West Bengal has already exempted market fees on fruits and vegetables. States of Bihar, Kerala, Manipur, A&N Islands, Dadar Nagar haveli, Daman & Diu, Lakshadweep did not have APMC Act: so there were no market fees. Tamil Nadu had fully amended the APMC act and no market fee was levied on fruits and vegetables. He advised that States should take further action on the recommendations.

He suggested that the markets with a turnover of more than ₹ 10.00 crore should have an electronic auction system. While Commission agents were an integral part of the present market system, States should make efforts to convert these commission agents into entrepreneurs by enabling them to avail assistance for creation of cold chain projects etc.

APMC Reforms

He requested that the State should make serious efforts to get perishables exempted from cess. Farmers should be able to sell the perishables anywhere and to everyone of his choice of preference. States should inform this Division about the commodities which have been exempted from cess in their respective State.

States should work out market fees generated by the APMCs and the share of perishables in the total market fees. The market infrastructure component under various schemes of DAC were linked with the market reforms. States should assess the difference between market fees generated from perishables and the assistance which could be availed under various schemes for development of market infrastructure. This could also be analyzed further that by granting exemption on perishable what kind of business can be generated in the State which can result into revenue generation to the state, although indirectly. This information would be shared by States with NHM Head Quarter at the earliest.

Non participation SHM Directors

Chairman expressed his concern over non participation of SHM Directors for project approval by EMC. Chairman decided that projects of States which were not represented by the Mission Directors without cogent reason, in EMC meetings would not be taken up for discussion. Accordingly the projects of Jharkhand, Madhya Pradesh, Rajasthan and West Bengal were not discussed in the meeting.

Projects beyond allocation amount

It was observed that some States have submitted projects beyond the allocated amount under Annual Action Plan 2012-13. Chairman stressed that the States should submit the projects within the approved action plan. In case of Punjab, a number of cold storage projects had been received during current year against an allocation of ₹ 7.20 crore. It was decided to consider the projects as per the date of

receipt within the allocated amount. For remaining projects, SHM may submit a plan for inter-component change, or explore funding from NHB scheme.

Shri Shailendra Kumar, Director, Horticulture, gave details of Indo-Dutch joint agriculture working group, Action Plan (2012-2015) signed between India and Netherlands. He informed that identified States should start preparing plan of activities to be taken up as per details of crops, centres circulated in the meeting. After receiving feed back from States, a meeting will be organized with agriculture councilor of Netherlands Embassy in New Delhi. He stressed the need that Haryana has already acquired required expertise in setting up centres of excellence with Israeli support which can be shared with other states.

Director Horticulture informed that cold storage projects submitted by SHM should be based on business model having details of profit making plan, backward - forward linkages, proposed ways to integrate the cold chain/cold storage in the supply chain, number of crops to be stored (month wise), capacity utilization vis-à-vis break even point and viability of the project. Without these details, projects received from SHMs will not be considered for sanction of subsidy under NHM. All States will submit details of total cold storages in the State, functioning projects, storages which have been declared Non Productive Assests (NPA) and cold storage capacity required interms of production of perishable in the State.

Thereafter, he made a power point presentation giving brief account of the projects to be sanctioned. He informed that these projects were appraised by the Project Appraisal Committee of Horticulture Division.

Based on justifications offered by the SHMs and views expressed by various members, the decisions taken by the Committee on the State wise /project-wise proposals under NHM are as under:

Bihar

| | Name of Component – Seed Infrastructure | | |
| 1/17-EMC/BHR | <p>Name: State Horticulture Mission Date of Receipt: 30.09.2011 Activity: Seed Infrastructure (Vegetable Seeds) (2 Units) Location: Patna and Nalanda Project Cost: ₹ 400.00 lakh Project details: The project was discussed by EMC in its meeting held on 20.10.2011 and deferred for clarifications from SHM. SHM has clarified that capacity of seed infrastructure unit will be 2.5 to 3.0 MT/hour and vegetable seeds like cauliflower, okra, tomato, chilli, brinjal, gourd, bitter gourd etc will be processed in the units. The vegetable seed raw material is available in adequate quantities (3899 MT) from state farms and vegetable growers of these two locations. SHM proposes to set up 2 seed infrastructure units for vegetables seeds at Patna and Nalanda. The machineries will include pre-cleaner, seed grader, indent cylinder, specific gravity separator, elevator, treater, vacuum cleaner, electronic moisture meter, packaging machine, weighing machine, germinator, hot air oven, divider etc. Bihar has an eminent position in the production of</p> | 400.00 | EMC approved the project and sanctioned ₹ 400.00 lakh as assistance for setting up of two seed infrastructure units at its farms in Patna and Nalanda. |

| 13/17-EMC/GUJ | <p>Name: Tirupati Cold Storage Date: 01.06.2012 Activity: Modernization of Cold Storage (7080 MT) Location: Shamsheerpura, Ta. Deesa, Dist. Banaskantaha Gujarat Project Cost: ₹ 137.15 lakh Project details: This is a private limited company promoted by Shri Kachhawa Fulchandbhai Devchandji. The firm established its existing cold storage in 2005 with 3 chambers and expanded the capacity by construction of another 1 chamber in 2008. The promoter stores the processing variety potatoes in all four chambers since last three years. In the existing technology in their plant they can store these potatoes only up to September every year. After September the sugar content in the potatoes stored get increased, therefore it become useless. In order to resolve this problem, the promoters have decided to upgrade their existing technology with installation of ventilation storage technology to be imported from the Netherlands. After modernizing the project will have several benefits resulting in increased income of farmers, high value addition of potato due to expected increase in processing, reduction in storage losses electricity saving up to 25%. The data sheet for standards is enclosed. The promoters are using EPS panels for insulation. Compressor is reciprocating and Finned type cooling system.</p> <p>Project Cost</p> <table border="1"> <thead> <tr> <th>Project cost as per DPR/Bank</th> <th>Admissible Project Cost (₹ in lakh) as recommended by SHM</th> <th>Adm. | | Name of Component – Primary Processing | | |
| 34/17-EMC/KTK | <p>Name: SHM Date of Receipt: 12.03.2012 and 22.05.2012 Activity: Primary Processing Units (31 Units) for horticulture crops Location: Chickmagalur, Shimoga, Bagalkot, Belgaum and Udupi Districts Project Cost: ₹ 665.95 lakh Project details: SHM Karnataka have forwarded 31 projects proposals of entrepreneurs for setting up of primary processing units for processing of pepper, arecanut, turmeric, ginger, chilly, mango, tomato and cashewnut. An innovative and cost effective technology is employed. Room type dryer is used, which has advantages of being efficient with more capacity, better quality and fuel efficient (dehusked areca & cocoa pods are used as fuel). Astraoven advantages are fuel efficient, no pollution and no loss of energy. SHM has submitted details of back ward linkages for sourcing of raw cashewnut and raw material for other projects from the local farmers. The forward linkages in the form of tie-up for selling of products has also been established. The viability of the projects has been worked out based on functioning of the units for minimum of 250 days/year. The total project cost of 31 units is ₹ 665.95 lakh. The eligible capital cost as recommended by SHM is ₹ 374.95 lakh and cost of each unit is within the admissible limit of ₹ 24.00 lakh. State Government has recommended subsidy of ₹ 149.93 lakh for 31 units which is within the admissible limit. The individual projects by farmers are being setup in production zones and have already established back ward linkages for sourcing of raw material from the farmers. All the projects are credit linked and loan has been sanctioned by various banks. The details are at Annexure – I.</p> | 149.93 | EMC approved the project and sanctioned ₹ 149.93 lakh @ 40% as credit linked back ended subsidy for 31 primary processing units as per Annexure - I. |

| 61/17- EMC/ PJB | <p>Name: M/s T. F. Cold Storage Date: 25.06.2012 Activity: Expansion of Cold Storage (1558 MT) Location: VPO Loharan Partappura, Distt. Jalandhar Project Cost: ₹ 90.00 lakh</p> | 34.56 | EMC approved the project and sanctioned ₹ 34.56 lakh @ 40% as credit | | | | | | | | | | | | | | | | | | | | | | | | | | | |

| | <p>Project details: This is a partnership firm and Shri S. Manjinder Singh is the managing partner, who intends to expand the existing 2 chambers cold storage with capacity of 3116 MT to a 3 chambers by addition of 1558 MT capacity for horticulture crops at Jalandhar District. Total capacity of the cold storage will be 4674 MT. The data sheet for standards is enclosed. The company is using the latest technology and has enclosed the data sheet indicating that the cold storage is being set up as per new technical standards. The promoters are using EPS for insulation. Compressor is reciprocating type and cooling system is ceiling suspended. SHM has submitted a report on backward & forward linkage of the project indicating that the project is located in the growing area which will work with 100% capacity utilization. As per data available with SHM the availability of cold storage capacity is much less than the required capacity. The project has established linkages with farmers for sourcing of raw material which will make it viable and running for 300 days in a year.</p> <p>Project Cost</p> <table border="1" data-bbox="220 645 1088 775"> <thead> <tr> <th>Project cost as per DPR</th> <th>Admissible Project Cost as recommended by SHM</th> <th>Subsidy</th> </tr> </thead> <tbody> <tr> <td>Building 55.00</td> <td>Building 51.41</td> <td></td> </tr> <tr> <td>Plant & Machinery 35.00</td> <td>Plant & Machinery 35.00</td> <td></td> </tr> <tr> <td>Total 90.00</td> <td>Total 86.41</td> <td>34.56</td> </tr> </tbody> </table> <p>Means of Finance: Promoter's Share - ₹ 35.00 lakh Term Loan - ₹ 55.00 lakh Oriental Bank of Commerce, G. | <p>Project Details: This is a Farmers Produce Promotion Society registered societies registration act 1860. The society proposes to set up a primary processing unit for turmeric. Recently a team of two officials and two turmeric growers visited the turmeric growing area of Kohlapur districts of Maharashtra for assessment of processing machinery units and they found that a movable turmeric cleaning and steaming unit which is very successful and turmeric grows of that area utilizing it in a big way. Steaming of turmeric rhizomes in field will be an advantage to the growers. The steam method has an edge over the traditional method because in this method cur cumin content is not lost during steaming. This machin has capacity to steam 25 qtls. turmeric rhizomes in one hour.</p> <p>Project Cost</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 30%;">Project cost as per DPR/Bank</th> <th style="width: 10%;"></th> <th style="width: 30%;">Admissible Project Cost</th> <th style="width: 10%;">(₹ in lakh)</th> <th style="width: 10%;">Adm. | 72/17-EMC/UP | <p>Name: Council of Science & Technology, U.P. Date: 03.02.2012 Activity: Tissue Culture Laboratory for Banana Location: Bakshi Ka Talab, Lucknow Project Cost: ₹ 102.04 lakh Project details: State council of science & technology, U. P. was established in May, 1975 by Government of U. P. as an autonomous body registered under Societies Registration Act 1860 by restructuring U.P. State Council of Scientific & Industrial Research; the origin of which lies in Scientific Research Committee constituted under University Grant Commission in the year 1947. The main aim fo the Council is to promote overall development of S & T in the State Research Promotion; Technology Development, Upgradation and Transfer, Entrepreneurship Development; and S & T Communication and popularization are the main activities of the council. Council of Science & Technology has proposed to setup a tissue culture lab for banana at Biotech Networking Facility Center, Bakshi Ka Talab at a total cost of ₹ 102.04 lakh for supply quality planting material to the farmers at economical rate with minimum capacity of 15 lakh plants/year. The machinery will include laminar air flow, autoclave, electronic balance, digital pH meter, hot air oven, culture bottles with cap, plastic crates, photoperiodic simulator digital base etc. Project Cost</p> <table border="1"> <thead> <tr> <th>Project cost as per DPR/Bank</th> <th>Admissible Project Cost (₹ in lakh)</th> <th>Adm. During the course of the deliberations, the following general decisions were also taken by the Empowered Committee.

- i. In case of infrastructure projects under NHM where ever the cost of building is not defined in the guidelines, 55% of admissible project cost will be considered as building cost for computation of subsidy.
- ii. States should organize workshops in consultation with WDRA for making the cold storage owners aware of benefits of WDRA notification, RIDF funding, External Commercial Borrowings (ECB) and Foreign Direct Investment (FDI) in cold chain.
- iii. States should initiate action on the recommendations of Dr. Saumitra Chaudhuri Committee report. States to exempt the perishables from cess, farmers should be able to sell the perishables anywhere and states should clearly notify that which commodities have been exempted from the cess. The markets with turnover of more than ₹ 10.00 crore should invariably have the electronic auction system.
- iv. The market infrastructure component under various schemes of DAC are linked with the market reforms. States need to amend the existing APMC Act and exempt perishables from market fees.

- v. States should ensure to depute Mission Director for attending the meetings of EMC and EC of NHM. In case of exigencies, prior information should be sent to this Department.
- vi. All SHMs will ensure that the projects are appraised at State Level with due diligence and subsidy is worked out which is commensurate with promoter's share and in no case subsidy should exceed the term loan sanctioned by the lending bank. The loan amount should be higher than the subsidy amount.
- vii. All SHMs will regularly update the website giving details of expenditure and physical progress of projects sanctioned under NHM.
- viii. Old projects which are complete and have started commercial production should not be recommended to NHM just for reimbursement of subsidy.
- ix. For credit linked projects, especially post harvest, cold storage, processing etc. subsidy will be released in two installments after verification regarding confirmation of technical standards issued by this Department wherever issued in the matter. First installment will be released by SHM after verifying the location and authenticity of entrepreneur and second installment will be released after submission of satisfactory progress report by Joint Inspection Team comprising of members from lending bank, SHM and District administration.
- x. SHMs will attach with every proposal the following documents without which the proposal will be treated as incomplete:
 - a. Techno-economic feasibility report.
 - b. Copy of bank sanction letter and appraisal note.
 - c. In case of cold storage, CA and MA storage projects – Data sheet, Certificate from Engineer/Architect regarding adoption of technical standards and protocol as per GOI guidelines should be part of the project. The details like business model (rental, arbitrage etc.), backward, forward linkages, number of crops to be stored (month wise), capacity utilization vis-à-vis break even point and viability of the project. All States will submit details of total cold storages in the State, functioning projects, storages which have been declared Non Productive Assets (NPA) and cold storage capacity required interms of production of perishable in the State.
 - d. Letter of sanction of loan by bank to the project.

- xi. For projects sanctioned to public sector all SHMs will ensure to have an MOU so that revenue generated from the unit is committed for providing subsidized planting material / training to farmers / such activities which takes the mission objectives ahead.

The Chairman reiterated the need for proper utilization of funds released for various projects and for submission of progress reports and utilization certificates on time. This will ensure proper cash flow and facilitate proper monitoring so as to achieve desired objectives and goals of the Mission.

The meeting ended with a vote of thanks to and from the Chair.
